

Survey Deployment Policy

AYA Bank welcomes the students who need to fulfill their research as part of their graduation. We provide a systematic process of survey data collection for quality assured academic research papers which have significant impact for the development of the higher education sector as well as the development of community.

The students who want to conduct research by using the data of AYA bank are required to submit their purpose of research, sample questionnaires and official sealed letter from the respective universities. Requested proposal are reviewed and approved in accordance with bank data policy and compliances.

For the purpose of knowledge management and data achieve, a copy of their research paper to the bank after the research activities.
